Ukraine-born John Demjanjuk is the only individual brought to court in three different countries (two denaturalization trials in the US, criminal trials in Israel and Germany) for acts related to the Holocaust. AUTHOR

Timothy Snyder

(Yale U, US)

timothy.snyder@yale.edu

The Founding Fathers tried to protect us from the threat they knew, the tyranny that overcame ancient democracy. Today, our political order faces new threats, not unlike the totalitarianism of the twentieth century. We are no wiser than the Europeans who saw democracy yield to fascism, Nazism, or communism. Our one advantage is that we might learn from their experience. Expanded from a post-Trump electionn post that received over 17,000 shares on Facebook.

"A brief primer in every important thing we might have learned from the history of the last century, and all that we appear to have forgotten" –*The Guardian*
