

Glenwood After School Activities (GASA)

Spring 2024: April - June

Glenwood School PTO is excited to announce our Spring 2024 GASA Program. This is a great way for our students to participate in fun and enriching after-school activities while giving parents an extra hour in the day! Spring 2024 session is scheduled to begin on April 22, 2024 and will meet for 6-7 sessions. Classes will be held weekly and will run from 3:30-4:30pm. Students will be escorted to GASA from their classroom after school dismissal at 3:15pm.

Details of the GASA schedule and pricing are listed below. Class materials are included.

Registration opens at 9:00pm EST on March 18, 2024.

Registration closes at 11:59pm EST on March 27, 2024.

Visit Glenwood PTO website to register: <https://glenwoodpto.membershiptoolkit.com>. PTO membership is required to participate.

PLEASE SIGN UP FOR THE WAITLIST if the class you would like is full. Open spots will be offered to the waitlisted students first.

Withdrawals will only be allowed during the registration period. If you withdraw your child during the registration period, you may receive a refund to your original method of payment, minus a \$25 processing fee. Once the registration period closes, no refunds will be given. There are no exceptions to this policy. Refunds may take 4-6 weeks to process.

If we do not reach the minimum number of participants, that class may be cancelled at the discretion of the PTO. If an activity is cancelled, we will either help you find an alternate class or issue a refund. The PTO reserves the right to substitute an instructor/class with a similarly qualified instructor or similar activity.

Student Conduct: GASA are meant to be a fun and enriching experience for our students. If a student is disrupting the instruction of the class, the instructor will notify the parents via email, indicating the behavior. If the behavior is repeated in the future meetings, the student will be removed from the class without refund, as per the GASA policy.

Consider **SAM-Students After-school program** if you would like to extend your child's stay after GASA.

 Robotics	K-1	<p>ROBOT COMPETITION!</p> <p>Gear up for the LEGO Robotics Competition Class – where imagination meets innovation, and every challenge is a chance to build, code, and conquer!</p> <p>Unleash your creativity as we embark on a mission to tackle mind-bending challenges with LEGO Robotics! Learn the ABCs of engineering and coding in the most fun way! Work with your friends to build amazing LEGO robots, and unlock the secrets of coding that make your robots come to life.</p> <p>Instructor: Saturday's Child Kids Club</p>	STEM	\$210
BollyHop Dance	K-2	<p>Get moving and have fun in this Bollywood x Hip Hop mashup! Kids will learn basic Hip Hop techniques and footwork, spatial perception, stage presence, choreography, and dance to fun Bollywood music with Hip Hop beats. Parents will be invited to watch a short performance during the final class.</p> <p>Dancers will also have an opportunity to participate in the Spring Showcase performance in Jersey City on May 18 for an additional \$50 which includes a costume and an extra class at Millburn SDA studio. A ticketing fee will apply to attend the show (no ticketing fee for performers).</p> <p>Instructor: SDA - Shehnaaz Dance Academy   </p>	Performing Art	\$180
Chess (Intermediate /Adv.)	1-4	<p>The class will examine short games from Master Level tournaments with the use of a demonstration board with open discussion as to why certain moves were played. After the opening discussion, students will be engaged in play with one another. After each class, copies of the featured game with notes and the final position will be handed out along with 6 checkmates to solve puzzles with an attached answer sheet. Also to be discussed will be how to avoid certain traps and how to get involved in rated Chess tournaments.</p> <p>Instructor: Mr. John Hagerty</p>	Critical thinking/ Executive Functioning Skills	\$180
Athletic Academy by Coach Jacobs	2-4	<p>Join Coach Jacobs in this advanced multi-sports program. Students will have an opportunity to help design the gym class using games they know and some new activities as well. Have fun with your friends and play games YOU want to play.</p> <p>Instructor: Coach Jacobs</p>	Sports	\$180
 Mega Machine Robotics	2-4	<p>In Mega Machine Robotics class, students will create some of their favorite motorized vehicles and machines. They will learn about gear ratio, sensors, pulleys, cranks, and basic to intermediate programming as they build trucks, space rovers, helicopters, and more. We will utilize LEGO® WeDo 2.0 and LEGO® Spike Prime Robotics Kits in this program. Your child will surely have fun as they build, learn, and play.</p> <p>Instructor: Snapology of Summit</p>	STEM	\$210

	Name	Grades	Description	Category	Price
	Creative Coders for Beginners	K-2	Learning to code is like learning to read and write in today's world! With ScratchJr, even really young kids (ages 5-7) can make their own cool stories and games with technology. It helps them solve puzzles, come up with ideas, and be creative while having fun! Instructor: Mrs. Forte	STEM	195
	Splatter Painting	K-2	Your creativity will run wild in this spontaneous and highly physical approach to making art - all through the process of splashing, flicking brushes or dripping paint. Not to mention you will have a ton of fun and take home some useful items that you decorated all by yourself. So go ahead and leave your mark! Instructor: Mrs. Schaufler	Art/Craft	190
	Cooperative Team Sports	2-4	Students will participate in a variety of team sports where their main objective is to work together to achieve a common goal. The games will include competition, but will have an emphasis on the collaborative group play. Learning cooperative strategies includes core sets of skills needed in many other aspects of life. Activities will include soccer, flag football, hockey, capture the flag, pin knockdown, various group tag games, and more! Instructor: Coach Jamie Cheeka	Sports	\$180
	Digital and Website Design	3-4	Would you like to learn a new creative skill on your Chromebook? Students will learn the basics of graphic design and create their very own website. Design is creative, it's practically limitless, and no matter what field you're in you can always express yourself better through it. And that's why this course is perfect for kids who have shown interest or are interested in developing their creativity. Bring your Chromebook for this crash course into digital and website design! Instructor: Mrs. Lowy	STEM	\$195
	Math Olympiad Prep & Creative Problem Solving	4	Practice Math Olympiad questions, learn problem solving, creative thinking, analytical skills, new math concepts and strategies, time management, and more in a fun group class. Our teacher has taught MO prep and other math competitions for more than ten years at multiple Millburn schools. Advanced 3rd graders can join by emailing gasa@glenwoodpto.net (subject to space availability). Instructor: Ms. Stela Anguelova	STEM	\$175

F R I D A Y	Date: 4/26, 5/3, 5/10, 5/17, 5/24, 5/31, 6/7 (makeup* 6/14)				
	Name	Grades	Description	Category	Price
	First Lab Science	K-1	<p>Every week kids will engage in hands-on fun experiments that will pique their curiosity and sharpen critical thinking skills. Students will explore a variety of science concepts such as basic chemistry, physics, biology, and STEM. Have you ever explored junk food science? Wanted to learn about "diffusion" using milk and skittles? Built a tower using only file cards? Join us for a fun class to learn and explore!</p> <p>Instructor: Horizons In Learning</p>	STEM	\$220
	Photography Fun	1-3	<p>Do you love to take pictures with your Parents' phones? If you think those pictures are good, why not see what happens when you use a real camera? In this hands-on class, we will be taking pictures to learn different techniques and tricks to take a good photograph. You will learn how to use special effects to make your pictures more interesting, and how to frame a picture so that it tells the story that you want to tell. You will build a photo album of all of your prints and, best of all, at the end of the semester, you get to show off your best pictures at a real live Gallery Show!</p> <p>Instructor: Saturday's Child Kids Club</p>	Creativity/ Art	\$230
	Story Creators Club & Animation Movie Making	2-4	<p>Once upon a time... your child became the author of their favorite stories! In this program, students will explore the primary elements of storytelling as they design their own unique stories focused on the characters and plot lines of stories they've heard before. Maybe they will dazzle us with tales of faraway lands, with amazing adventure of superheroes, or even science experiments gone very, very wrong. The possibilities for creation are endless! We will use 4 classes to teach students basic techniques of Animation movie making. And the students will get chance to create a short movie based on the story they create.</p> <p>Instructor: Snapology of Summit</p>	STEM/ Performing Art	\$220
	Nothing but Net (Basketball)	2-4	<p>Join Coach Damien, one of Millburn Basketball's assistant coaches for this class and you will be on your way to becoming the next LeBron, Kevin Durant or Candace Parker! Each week, Coach Damien will work on improving your game technique with focus on improving essential skills such as dribbling, passing, shooting, defense and rebounding. This is a class for teamwork and fun! Take the shot!</p> <p>Instructor: Coach Damien</p>	Sports	\$210
