

KENADI WALKER BIOGRAPHY

My name is Kenadi Walker, and I am a graduate of Milby High School. I was raised in Houston by my grandmother. I am a first-generation college student at Texas Southern University College of Science, Engineering and Technology. I am a Louis Stokes Scholar in the LSAMP STEM program majoring in Computer Science. My ultimate goal is to become a Data Analyst where I will use my many skills in research, coding, analyzing and interpreting data in the area of Cyber Security. I completed training and received an OSHA certification. I

I have also volunteered at the Houston Food Bank helping the staff coordinate and develop plans to promote broader social change in the community. While providing meals to the homeless, I developed strong interpersonal skills and sensitivity to the needs of others. I also participate with Holman Street Baptist Church in the distribution of holiday food baskets. I was a study abroad student in the “Dance Cuba” program coordinated by the National Association of African American Studies (NAAAS). I was afforded this opportunity by the non-profit organization Positive Perspective Mentors & Educational Services (PPMES). This unique experience strengthened my leadership skills of accountability, self-control, humility, empathy, courage, and responsibility. I am confident that experiencing the NCCWSL program I will identify my passion and utilize every opportunity to seize the bright and fruitful future that lies ahead of me.
