SCHEDULED ACTIVITIES

A selection of workshops and lectures for career development or personal interest.

3:15 p.m.

Room #	Title and Description	
414D	Collaborative Robotics	<i>James Reaves</i>
	See a demonstration of our robots: the ABB Yumi and the Universal UR10. Information session about collaborative robotics and demo of what they can do	
225B	Discovering Your Future: Pathways to Hot Tech Jobs	<i>Kobie Joyner, Betsy Knocklein, Jennifer Simmons</i>
	Are your skills outdated? Don't know what to do? Uncertain about your future employment? Non-Credit Computer Education can help you align technology training with in-demand career opportunities.	
233B	Leveraging LinkedIn in Your Job Search	<i>Gail McCowan</i>
	In today's job market, over 90% of recruiters and HR professionals use social media to find qualified candidates, with LinkedIn their tool of choice. Whether you're new to this resource or have used it for years, see what LinkedIn offers and get tips to leverage its capabilities.	
224B	National Career Readiness Certificate: A True Credential	<i>Bernadette McAllister</i>
	Helps students build the essential career-relevant skills needed for professional and personal development and effective job performance. Four levels of certificate: Platinum, Gold, Silver, and Bronze.	
403D	The New Vocational Training	<i>James Frawley</i>
	Learn what you need to improve, strengthen or add to your current skills with WCE Vocational Training classes at multiple Wake Tech campus locations. Programs include electrical wiring, plumbing, HVAC, building / construction, basic welding, automotive programs including On-Board Diagnostic (OBD) Emission Certification, and more.	
404D	Starting a Career as a Telecommunicator	<i>Jeffrey Robinson, Angela Schultz, Glenn Mitchell</i>
	Wake Tech is offering a new program to train individuals to become telecommunicators starting in October of 2018. Learn what a telecommunicator does and what the job outlook is for the field. We will discuss requirements for entry into the program as well as program expectations and requirements. We will have time for questions and answers.

SCHEDULED ACTIVITIES

A selection of workshops and lectures for career development or personal interest.

4:00 p.m.

Room #	Title and Description	
223B	Becoming a Translator and Interpreter	<i>Jamila Kribil</i>
	If you speak English and one other language, find out what opportunities are available. Learn the difference between an interpreter and a translator — and if this field is right for you.	
236B	BioNetwork Training: Want a job manufacturing pharmaceuticals?	<i>David Farrell</i>
	The BioNetwork offers short courses for employment readiness in biomanufacturing. Learn about biomanufacturing and the types of products produced in NC. Our courses provide hands-on experience with the instrumentation and equipment that can lead to greater success when seeking jobs in the biopharmaceutical manufacturing industry.	
331C	Build Your Business with Wake Tech	<i>Cherith Roberson, Katie Gales</i>
	Interested in starting your own business, or supporting someone who is? Come to this jam-packed, fun session to learn about the resources Wake Tech offers, what the most important skills are for entrepreneurship, and what steps you can take to make your self-employed dreams a reality.	
235B	Destination Hospitality! The Future for Careers in the Service Industry	<i>Sameer Pawa</i>
	Learn about the career options available in the world of hospitality. From front office to sales to being a chef, we'll explore the different career paths — so you can decide if this is the right career for you.	
225B	Discovering Your Future: Pathways to Hot Tech Jobs	<i>Kobie Joyner, Betsy Knocklein, Jennifer Simmons</i>
	Are your skills outdated? Don't know what to do? Uncertain about your future employment? Non-Credit Computer Education can help you align technology training with in-demand career opportunities.	
402D	Build Your Future with a Career in Barbering or Cosmetology	<i>Maribel Jeffries and William Graham</i>
	The Workforce Continuing Education schools of Barbering, Cosmetology and Natural Hair provide training in the entry-level skills, fundamental practices, and procedures in these fields. Students are provided with shop site visitation, guest speakers, exposure to the industry, small business concept, and industry changes to advance their careers.	
233B	Leveraging LinkedIn in Your Job Search	<i>Gail McCowan</i>
	In today's job market, over 90% of recruiters and HR professionals use social media to find qualified candidates, with LinkedIn their tool of choice. Whether you're new to this resource or have used it for years, see what LinkedIn offers and get tips to leverage its capabilities.	
234B	Make a Difference as a Substitute Teacher in K-12	<i>Susan Ballard</i>
	Are you considering a job as a K-12 substitute teacher, but aren't sure where to begin? Wake Tech's Substitute Effective Teacher Training is packed with the valuable information you need to be a successful substitute teacher. We'll discuss issues like classroom management, lesson planning, community building, and legal issues.	
224B	National Career Readiness Certificate: A True Credential	<i>Bernadette McAllister</i>
	Helps students build the essential career-relevant skills needed for professional and personal development and effective job performance. Four levels of certificate: Platinum, Gold, Silver, and Bronze.	
404D	Starting a Career as a Telecommunicator	<i>Jeffrey Robinson, Angela Schultz, Glenn Mitchell</i>
	Wake Tech is offering a new program to train individuals to become telecommunicators starting in October of 2018. Learn what a telecommunicator does and what the job outlook is for the field. We will discuss requirements for entry into the program as well as program expectations and requirements. We will have time for questions and answers.	

SCHEDULED ACTIVITIES

A selection of workshops and lectures for career development or personal interest.

4:45 p.m.

Room #	Title and Description	
414D	3D Printing	James Reaves
	See an interactive demonstration of our 3D Printer.	
223B	Becoming a Translator and Interpreter	Jamila Kribil
	If you speak English and one other language, find out what opportunities are available. Learn the difference between an interpreter and a translator — and if this field is right for you.	
331C	Build Your Business with Wake Tech	Cherith Roberson, Katie Gales
	Interested in starting your own business, or supporting someone who is? Come to this jam-packed, fun session to learn about the resources Wake Tech offers, what the most important skills are for entrepreneurship, and what steps you can take to make your self-employed dreams a reality.	
404D	Computer Basics for Employability	Kathleen Schmieder
	Today's job market requires a comfort zone with computers. Find your way through the available technology in this workshop designed to provide the skills you need. Understand the value of using computers in your job search, and learn to create documents in Microsoft Word, Excel, and various online tools to improve your marketability.	
225B	Discovering Your Future: Pathways to Hot Tech Jobs	Kobie Joyner, Betsy Knocklein, Jennifer Simmons
	Are your skills outdated? Don't know what to do? Uncertain about your future employment? Non-Credit Computer Education can help you align technology training with in-demand career opportunities.	
234B	Online Learning: Health, Hospitality, BioWork, and more	Samantha Brown
	Online courses provide the same quality education as seated courses, but with more flexibility to fit your schedule. See the types of courses you can take online to start a new career or take yours to the next level. Don't see the courses you want online? Come tell us what you need.	
233B	The New Vocational Training (Spanish)	Maribel Madera Garcia
	Learn what you need to improve, strengthen or add to your current skills with vocational training classes. Programs include electrical wiring, plumbing, HVAC, building / construction, basic welding, automotive programs including On-Board Diagnostic (OBD) Emission Certification, and more. Courses taught bilingually in English and Spanish.	
235B	Allied Health Careers	Diane Cardamone
	Learn about the high demand career opportunities in the Allied Health Field and the programs Wake Tech offers to help you prepare for one.

	Are your skills outdated? Don't know what to do? Are you uncertain about your future employment? Non-Credit Computer Education can help you discover how to align technology training with in-demand career opportunities.	
404D	House of Pressure: Not Your Typical Dollhouse	<i>Ernest Hodgson</i>
	The House of Pressure is a building science prop used to model parts of the "house" and the concept of a whole-house approach to home performance. Learn about careers in the building science field to reduce energy use, address the health and safety of occupants, and assess how the building envelope, appliances, and occupants interact with one another.	
402D	Build Your Future with a Career in Barbering or Cosmetology	<i>Maribel Jeffries and William Graham</i>
	The Workforce Continuing Education schools of Barbering, Cosmetology and Natural Hair provide training in entry-level skills, fundamental practices, and procedures in these fields. Students are provided with shop site visits, guest speakers, exposure to the industry, small business concept, and industry changes to advance their careers.	
234B	Learn How to Teach English as a Second Language— No Experience Necessary	<i>Susan Ballard</i>
	No teaching experience? No problem! Wake Tech's ESL Teaching Certificate Program produces graduates who are classroom ready. This workshop provides a thorough program overview, answers all your questions and demonstrates a fun, interactive example of language acquisition methodology.	
233B	Road to Retirement	<i>John Amendola, Mike Pugh</i>
	A how-to guide for financial success. We assess the costs of retirement and set goals. We identify sources of income and invest now for the future — while protecting your wealth. We review the types of retirement distributions and give you the tools you need to provide for you and your family. Lastly, we overcome roadblocks.
